Summary

I designed this to work with the stock mount and It pairs great with <https://www.printables.com/model/698864-anycubic-ko>

[3D Printers](#) > [Anycubic Parts & Upgrades](#)

Tags: [anycubic](#) [kobra2](#)

I don't like how the spool sits on the original Spindle so I adapted my old design to work with the Stock mount and also with <https://www.printables.com/model/698864-anycubic-kobra-2-max-spool-kobra-2-plus-kobra-max->

This Should fit most spool centers.
