A unique small gift or the perfect box for your small gift! A heart-shaped box with roses on its lid.

I've uploaded the roses as separate files, as the best way to print this box is to print the top and bottom parts together, oriented with their largest flat surfaces on the bed. The roses could be printed separately if you want to use a different color, and then they could be glued to the top part of the lid.

The roses may need some outer support that also helps with bed adhesion.

Experiment with different color combinations and please show me your makes!
