Instructions & Tips

1. Print SF2 SB2 and SB3 parts using brim
2. Printing the bones out of PETG gave me better results, PLA also does the job
3. Use exploded view of skeleton and assemble

4. Glue fur parts on the skeleton

start with the big pieces

neck head and ears

Limbs for last

26/12/2023 - I updated Lioness_bones(Black).stl (it has the piece that was missing)

6/1/2024 - I changed the front lower limbs SF2-R & SF2-L, Bottom fur parts for improved mobility on the back legs.

Keep an eye for extra pieces i'm working on :

second head with open mouth , possibly some teeth there
and the mane update!!
