Tags: [shelf](#) [shelves](#) [rollershutter](#)

I designed a few shelves for below my monitor. I think the main design of the shelves is too specific to be of interest, but the design of the roller shutter could maybe be of interest for you. You can adjust the length of the roller shutter by simply printing more “roller shutter middle” parts.

Printed with Prusament PLA

Nozzle diameter

0.4 mm

Layer height

0.15 mm

Infill density

15%
