Replica of the main character's helmet from the video game Satisfactory. Comes in two size variations. The “large” version is for a 23" circumference head and the “small” version is for a 22" circumference head. **Both sizes are designed to work with this purchased visor.** You'll also need some screws and a steel mesh for the cheeks. **For more information on finishing the helmet, consult the video we filmed on the build.**

We're Bill and Britt, from [Punished Props Academy](#), and we love 3D printing! GizmoThrill is our new 3D printing venture. We're designing new 3D printed kits for you to enjoy, so look for fun new models soon. This model is one of our older free projects. Have fun and happy crafting!
